IT NETWORK SYSTEMS ADMINISTRATION

DESCRIPTION OF PROJECT

Gajahmada Corporation has a small office network topology to connect Workstations and Servers in different rooms. Network traffic will be managed using the technologies of Cisco devices including Layer-3 Switches, Regular Switches, and Routers. Please configure a reliable network infrastructure to support our business activities.

PHYSICAL TOPOLOGY

The network system module will use Packet Tracer Physical Mode (PTPM). The requested work will start from the physical setup to the configuration of network services. Competitors can only work on problems using console. The following is an example of interfacing a competitor's work screen.

LOGICAL TOPOLOGY
